Workshop Details

Do you ever want to provide assistance/support to your clients caregivers but are not sure how?

Family caregivers have been referred to as the backbone of the healthcare system because they are vital, yet invisible, and often vulnerable themselves. There are more than 600,000 caregivers in Alberta, who care for family members and friends with challenges such as illness, disability or aging.

Join us for CLPNAs one-day workshop, presented in partnership with Caregivers Alberta, and learn about the Navigator program. During this workshop participants will discover how to “Care for the Caregiver”, acquiring the skills to:

1. Understand the caregiving experience
2. Identify and assess caregivers’ needs
3. Support caregivers to recognize stress and develop self-care attitudes and practices
4. Assist caregivers in connecting to resources
