# **U: Medication Management**

**Please note:** Competencies within this section of the Profile are to be taken in consideration with competencies outlined throughout this document and are not intended to be standalone.

**Important**: LPNs are responsible to ensure they have any required education or training and the individual competence prior to performing these competencies.

### **U: Medication Management**

### Competency

### U-1: Principles of Pharmacology

Competency Statement - A Licensed Practical Nurse will:

### U-1-1 Demonstrate knowledge of common drug origins:

- animal (hormones, enzymes)
- chemical synthesis (antibiotics, steroidal, radioactive)
- natural (plant, mineral, herbal remedies)

### U-1-2 Demonstrate knowledge and understanding of the principles of pharmacology:

pharmacokinetics

 absorption o metabolism o distribution excretion

pharmacodynamics

o adverse effect drug interactions o allergic reaction or anaphylaxis drug toxicity o antagonistic effect o duration of action o complementary and alternative idiosyncratic reactions therapy interactions synergistic effect desired effect

### U-1-3 Demonstrate knowledge of routes for medication administration:

gastrointestinal (oral, enteral) intramuscular inhalational intraosseous

• intra-arterial intrathecal intracerebral intravenous

 intradermal intravesical percutaneous, epicutaneous, mucous membranes (sublingual, buccal, nasal, subcutaneous optic, otic, vaginal, rectal)

therapeutic duration

### U-1-4 Demonstrate knowledge and understanding of medication action and effect for patients across the lifespan and associated nursing implications:

indications and contraindications expected outcomes

interactions risk factors

adverse reactions and side effects lab values

### U-1-5 Demonstrate knowledge and ability to access credible resources for information and research related to medications prior to administration.

# Major Competency U: Medication Management

# Competency

### **U-1: Principles of Pharmacology**

Competency Statement - A Licensed Practical Nurse will:

- U-1-6 Demonstrate knowledge and ability to apply infection prevention and control standards in safe storage, handling, removal, and disposal of medications according to employer requirements:
  - antineoplastic
  - autoimmune
  - cytotoxic
  - biological
  - hormones

- insulin
- narcotics
- known hazardous
- vasodilators
- bronchodilators
- U-1-7 Demonstrate knowledge and ability to perform drug counts on controlled medications according to employer requirements:
  - maintain accurate record
  - accurately record addition and/or removal
- participate in shift count and accurately record inventory
- co-sign waste of controlled medication
- U-1-8 Demonstrate knowledge and ability to report adverse events and medication errors according to legislation and employer requirements.

### **U: Medication Management**

#### Competency

### U-2: Medication Preparation and Administration

Competency Statement - A Licensed Practical Nurse will:

### U-2-1 Demonstrate knowledge and understanding of the National and Alberta Drug Schedules:

- Schedule 1: drugs requiring a prescription as a condition of sale
- Schedule 2: drugs available without a prescription but must be obtained from a pharmacist
- Schedule 3: drugs available without a prescription from the self-selection section of a pharmacy
- Unscheduled: drugs not listed in a National or Provincial schedule and may be sold from any retail outlet

# U-2-2 Demonstrate knowledge and ability to accept, process, verify, and initiate written, verbal, telephone, or electronic medication orders considering:

- date and time prescribed
- patient's full name
- medication name, strength, and dosage
- route, frequency, duration

- authorized prescriber (name, signature, designation)
- order is accurate, appropriate, and complete
- follow up with authorized prescriber as necessary
- U-2-3 Demonstrate knowledge and ability to accurately calculate dosages, concentrations, rates, and volumes using formulas and standards of measurement associated with medication administration.
- U-2-4 Demonstrate knowledge and ability to perform patient assessment prior to medication administration.
- U-2-5 Demonstrate knowledge and ability to appropriately prepare medications for administration according to principles of safe medication preparation and employer requirements.
- U-2-6 Demonstrate knowledge and ability to apply the "rights" and "checks" of medication administration to reduce risk of medication error and ensure patient safety.

# U-2-7 Demonstrate knowledge and ability to adhere to employer requirements and procedure for safe administration of medication by:

- gastrointestinal (oral, enteral)
- inhalational
- intradermal
- percutaneous, epicutaneous, subcutaneous
- intramuscular
- intravenous (continuous, intermittent, direct)
- mucous membranes (sublingual, buccal, nasal, optic, otic, vaginal, rectal)
- intravesicular (bladder instillation)

# Major Competency U: Medication Management

### Competency

### U-2: Medication Preparation and Administration

A Licensed Practical Nurse will:

- U-2-8 Demonstrate knowledge and ability to adhere to employer requirements when monitoring patient receiving medication administration by:
  - intraosseous

intra-arterial

intrathecal

- intracerebral
- U-2-9 Demonstrate knowledge and ability to monitor, evaluate, and document medication effectiveness.
- U-2-10 Demonstrate knowledge and ability to recognize and manage adverse medication reactions and anaphylaxis:
  - identify signs and symptoms
  - implement protocol according to employer requirements
- U-2-11 Demonstrate knowledge and ability to administer nitrous oxide (see Standards of Practice #14, section Z of this document):
  - identify risks and precautions
  - manage adverse reactions
  - provide ongoing monitoring
- U-2-12 Demonstrate knowledge and ability to administer diagnostic imaging contrast agents (see Standards of Practice #13, section Z of this document):
  - identify the different types
  - identify risks and precautions
- manage adverse reactions
- provide ongoing monitoring

### **U-3: Medication Management**

### Competency

### U-3: Immunization and Communicable Disease Control

Competency Statement - A Licensed Practical Nurse will:

- U-3-1 Demonstrate knowledge and understanding of the immunization restricted activity in the Health Professions Act's Licensed Practical Nurses Profession Regulation.
- U-3-2 Demonstrate knowledge and ability to provide immunization in accordance with professional legislation, regulation, standards, and guidelines (see Standards of Practice #5, section Z of this document).

LPN Profession Regulation: sect

section 13(1) A regulated member may, in the practice of licensed practical nursing, perform the following restricted activities in accordance with the standards of practice:

(c) administering vaccines for the purpose of providing immunizations where the recipient of the immunization is 5 years of age or older

### **U-3: Medication Management**

#### Competency

#### U-3: Immunization and Communicable Disease Control

Competency Statement - A Licensed Practical Nurse will:

- U-3-3 Demonstrate knowledge of immunity and principles of infectious disease prevention and control.
- U-3-4 Demonstrate knowledge of anatomy, physiology, pathophysiology related to infectious diseases.
- U-3-5 Demonstrate knowledge of national and provincial legislation, regulation, schedules, and standards of immunization.
- U-3-6 Demonstrate knowledge of immunization schedules and prevention of infectious disease for:
  - infants
  - children
  - adults

- seniors
- population specific
- U-3-7 Demonstrate knowledge of the action, purpose, uses, and nature of common immunizing and biological products.
- U-3-8 Demonstrate knowledge and ability to identify the factors which affect the action of immunizing and biological products.
- U-3-9 Demonstrate knowledge and ability to identify and report side effects, adverse events, and contraindications related to immunization and biological products.
- U-3-10 Demonstrate knowledge and ability to maintain the cold chain in the transportation and storage of immunizing and biological products.
- U-3-11 Demonstrate knowledge and ability to identify basis for administration of an immunizing or biological product.
- U-3-12 Demonstrate knowledge and ability to review pertinent health information prior to immunization.
- U-3-13 Demonstrate knowledge and ability to identify risk factor and contraindications to immunization and report.
- U-3-14 Demonstrate knowledge and ability to document patient assessment and report any risks and contraindications.
- U-3-15 Demonstrate knowledge and ability to provide patient teaching to obtain informed consent for immunization:
  - name of immunizing and biological product
  - infectious disease prevention
  - benefits of immunization

- risks and side effects
- wait time following immunization
- emergency contact

# Major Competency U-3: Medication Management

### Competency

#### U-3: Immunization and Communicable Disease Control

Competency Statement- A Licensed Practical Nurse will:

- U-3-16 Demonstrate knowledge and ability to perform safe preparation, transportation, and administration of immunizing and biological products.
- U-3-17 Demonstrate knowledge and ability to apply the "rights and checks" of medication administration when administering immunizing and biological products to reduce risk of medication error and ensure patient safety.
- U-3-18 Demonstrate knowledge and ability to prepare immunizing and biological product from vial or ampule for injection.
- U-3-19 Demonstrate knowledge and ability to landmark injection site and use proper technique to administer intradermal, subcutaneous, and intramuscular injections.
- U-3-20 Demonstrate knowledge and ability to properly dispose of sharps and maintain infection prevention and control standards.
- U-3-21 Demonstrate knowledge and ability to record immunizing or biological product administration and patient response.
- U-3-22 Demonstrate knowledge and ability to document and report adverse effects from immunizing or biological product.
